**1938 Chevrolet Master Pickup Truck**

Fully restored to a high standard

Attractive duotone livery

206 cid I-6 engine

3-speed manual transmission

The last series of trucks from Chevrolet and GMC to share styling with the contemporary passenger cars, the Master pickup remains one of the most collectible examples of utility vehicles from the prewar era. With the same running gear from the Master 85, this was a real workhorse, boasting a robust suspension and rugged 206 cid inline six-cylinder engine.

*The Vehicle Offered* Restored to a high standard, this 1938 Master features an attractive period correct duotone brown livery. The mechanical components have been fully rebuilt and the vehicle abounds with thoughtful touches like rolling stock in the correct size and profile, accurate plating and painting of underside surfaces, as well as an exceptional interior. The most popular half-ton truck of the day, this is a rare opportunity to own a vehicle so thoughtfully
