1936 Ford Custom Pickup Truck

Vehicle Identification Number: 182726370

1936 Ford Pickup. The stance of this Traditional Rod is nothing short of AMAZING. The Exhaust is shaped to match the Hood Lines. The Power Plant is a Chevy 350, with a 700R4 Automatic 5 Speed Transmission & a Lokar Shifter. The Engine Block and Front Shocks are painted to match the Suspension, Grille, & the Spoke Wheels! This is a fresh build by a Top Quality Body Shop, Tidwell Customs in SLC, with a brand new Paint Job. It is Original Henry Ford Sheetmetal with new Floorboards. This Stunning Ride will stop you dead in your tracks as it is Chopped, Notched, Shortened & Lowered & has Adjustable Coil Overs for Suspension. There is \$8,000 in the Interior alone, with Real Ostrich Skin Leather throughout the entire cab, Custom Door Panels to match the Custom Seats & Headliner, Custom Built Bronze Dash & Glove Box, Dolphin Digital Gauges, Glued Down 1 Piece Custom Carpet, a Hood Vent for fresh Air while you are moving, & it even has Power Windows. It also has a mounted Harley Davidson Fire Extinguisher from the 30's & a hidden (retractable) license plate holder! It has no stereo, but it

has a great Bluetooth Sound System, and Kenwood amp & Speakers, that sounds Awesome! The bed is built with Jatoba Wood (Brazilian Cherry). It has a slight Baffle in the Exhaust, so while it is not ear piercing, it is louder than hell! The hood has additional Hood Louvers welded in the top that allows the ambiance from the Green or White LED Lights in the engine compartment to Shine through while driving at Night. The interior is also equipped with the same LED Lights. Many more upgrades as well. This little Truck is peppy too! It gets up & goes FAST,! One of my favorite things is to enter the highway doing 80 miles an hour & watching people's faces!

Auction Estimate: \$55,000-\$58,000
